

# our plan for East Devon

## 1 We will run a council which delivers value for money

Every decision we make must deliver value for money. We will protect and invest in the services our communities expect and make sure every penny is spent wisely.

## 2 Looking after the vulnerable and those in need

We will always support the vulnerable and elderly to help residents live safely and independently; improving their quality of life with the support they need.

## 3 Standing up for our environment

You have told us how important protecting green spaces and the natural environment is to you. We will make this a priority for the Council.

## 4 Delivering the right homes in the right places

We will work to ensure that there are sufficient affordable homes that our community requires, we will also explore building modular homes. Housing will be built in the right places and in the right way.

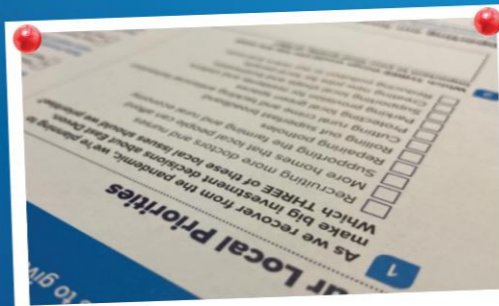

East Devon Conservatives will stand up for local residents.

## 5 Reducing car parking charges

Thousands of people in East Devon support our plan to cut the cost of parking particularly coastal car parks. We will act quickly to reduce parking charges to help local people and protect our high streets.

## 6 Invest in our public toilets

We know it is important to protect our public toilets. We will work with communities to invest in and refurbish them across East Devon.

## Listening to you

The scars inflicted across our district by the current coalition running the council are sadly obvious to everyone. Our priorities will be your priorities and we'll listen to you because we care.

## Delivering a Local Plan

We know local housing needs to be more affordable. We will work tirelessly to deliver a Local Plan which delivers the homes people need in the right places.

# Our Plan for East Devon

## Looking after East Devon

We are committed to improving recycling, reducing pollution and planting more trees. We will make sure the environment is at the centre of everything we do. We want to protect our district, not concrete all over it.

## Saving public toilets

The Conservatives launched a campaign to save East Devon's public toilets last year. As a result, some were reluctantly saved by the current coalition running the council. We promise to protect our public toilets and listen to you.

## Cut car parking charges

We regret the decision by the Independents, Lib Dems and East Devon Alliance who decided to double the price of parking across East Devon. It hurt our local businesses and high streets. We will reduce charges to help residents and visitors.

## Working together

We have a great team of local people from Axminster to Exmouth who are ready to run the council. We will work with local MP, Simon Jupp to help deliver for East Devon.

East Devon District Council 4th May 2023

ELECT

# Oliver KERR Brian BAILEY

## A strong local team for Exmouth Littleham

INSIDE  
WHAT'S AT  
STAKE IN THIS  
ELECTION?

✓ Getting the right local plan for Littleham.

✓ Protecting our coastline and natural environment.

✓ Supporting the elderly and vulnerable.

Conservatives

Help deliver Our Plan for East Devon.  
Vote Conservative on Thursday 4th May 2023.

Dear Resident

**A Conservative-led council will build the right type of houses in the right place, protect public toilets, reduce car parking charges and put pressure on South West Water to tackle sewage pollution. In just a few weeks, we will all face a choice about our area's future. The local elections in May will decide who's in charge of your local services — and how much council tax we pay for those services.**

We are your Conservative council candidates. We are passionate about Exmouth, and as a team, we have the local knowledge, proven track record, experience and the energy to be the councillors you deserve.

Brian is an experienced councillor, having represented the community for many years and Oliver's background as a marine ecologist means he is passionate about our coastline — between us we will shine a spotlight on issues like sewage and the long overdue plans for Queens Drive, making sure they are top of the Council's agenda.

As your district councillors in Exmouth Littleham we will continue to ensure that your views are heard in Honiton. We will ask you what you think and what you want to see for our town and district. Exmouth residents are proud of this town and tell us they want to see it thrive as the best place to live in the country.

Sadly, the past five years has seen mismanagement by the current council led by Independents, Liberal Democrats and the East Devon Alliance. They have failed residents and have not listened to what matters to you. These local elections are vital for getting Exmouth and East Devon back on a path to prosperity and the votes of residents like you will be crucial to the outcome.

Your vote will decide whether the Conservatives can deliver on saving your public toilets, cutting the cost of parking and delivering the right homes, in the right places.

*Brian and Oliver*

# What's at stake in Exmouth Littleham at this election?

**As Conservatives we've made real progress on delivering for Exmouth Littleham. But there's still much more to do. So, for a strong and effective local team who'll get things done, vote for Brian Bailey and Oliver Kerr on Thursday 4th May.**

**We are holding South West Water to account for the unacceptable issue of sewage in our seas and on the Maer, and excessive tanker movements through our community.**

You told us how important it is and we agree. Profit and bonuses before health and nature is NOT acceptable. Conservatives, supporting our MP Simon Jupp, will crack down on SWW. Our town, our beaches and our seas all deserve better

Cracking down on South West Water.

Reducing Higher Car Parking Charges.

**Raising the price of our coastal car parks without any public consultation was a total scandal.**

The Conservatives were against this rise and will reduce the price of parking in coastal car parks. This is what residents and business tells us they want, enticing people back into our town centre and to our seafront, supporting the local Exmouth economy.

Supporting you during challenging times.

**Residents in East Devon are living in challenging times.**

Residents in East Devon are living in challenging times. If elected, we will work with all tiers of government to ensure those in need receive the correct financial support, as demonstrated with securing the triple lock and the energy support scheme. We will also do everything we can to protect the health and wellbeing of all our local communities, providing the best quality of life we can.

**All over East Devon the East Devon Alliance and Lib Dems have failed to consider the impact of their botched local plan, cooked up in Honiton, on communities like Exmouth.**

Too many houses in the wrong places will irreversibly change the character of our area, and put pressure on services and infrastructure already in need of improvement. We Conservatives will ensure Exmouth Littleham, will be protected from over development.

Getting the right local plan for Littleham.

**For a hard working team who'll get things done in Exmouth Littleham. Vote for Brian Bailey & Oliver Kerr on the 4th of May.**
